

# THREETOEDBEAR

## CUSTOMIZE YOUR LIFE

Bird Feeder Digital Download

Brought to you by the  
Three Toed Bear

Thank you so much for your purchase and your interest in my designs. If you get the chance, pop on over to [www.threetoedbear.com](http://www.threetoedbear.com) where there are lots of free downloads and some discount links for some others. Be sure to subscribe to the mailing list and be the first notified of new free designs, or when popular designs end up going online for free as a thank you to my customers!

You can also get notified of all the free files available on Facebook in the Glowforge Creators group at <https://www.facebook.com/groups/303245694844372>

And of course check me out on Instagram @threetoedbear  
<https://www.instagram.com/threetoedbear/>

Please test the notch and groove fits before cutting the entire assembly. Not all lasers or materials are created the same, so getting a kerf-fit that works for everyone is impossible. This will work the material I recommend on [www.threetoedbear.com](http://www.threetoedbear.com)

If the fits don't work for you, please feel free to shoot me an email at [threetoedbear@gmail.com](mailto:threetoedbear@gmail.com) and we can work together to get you an assembly with the proper fits.

Bottom Rim

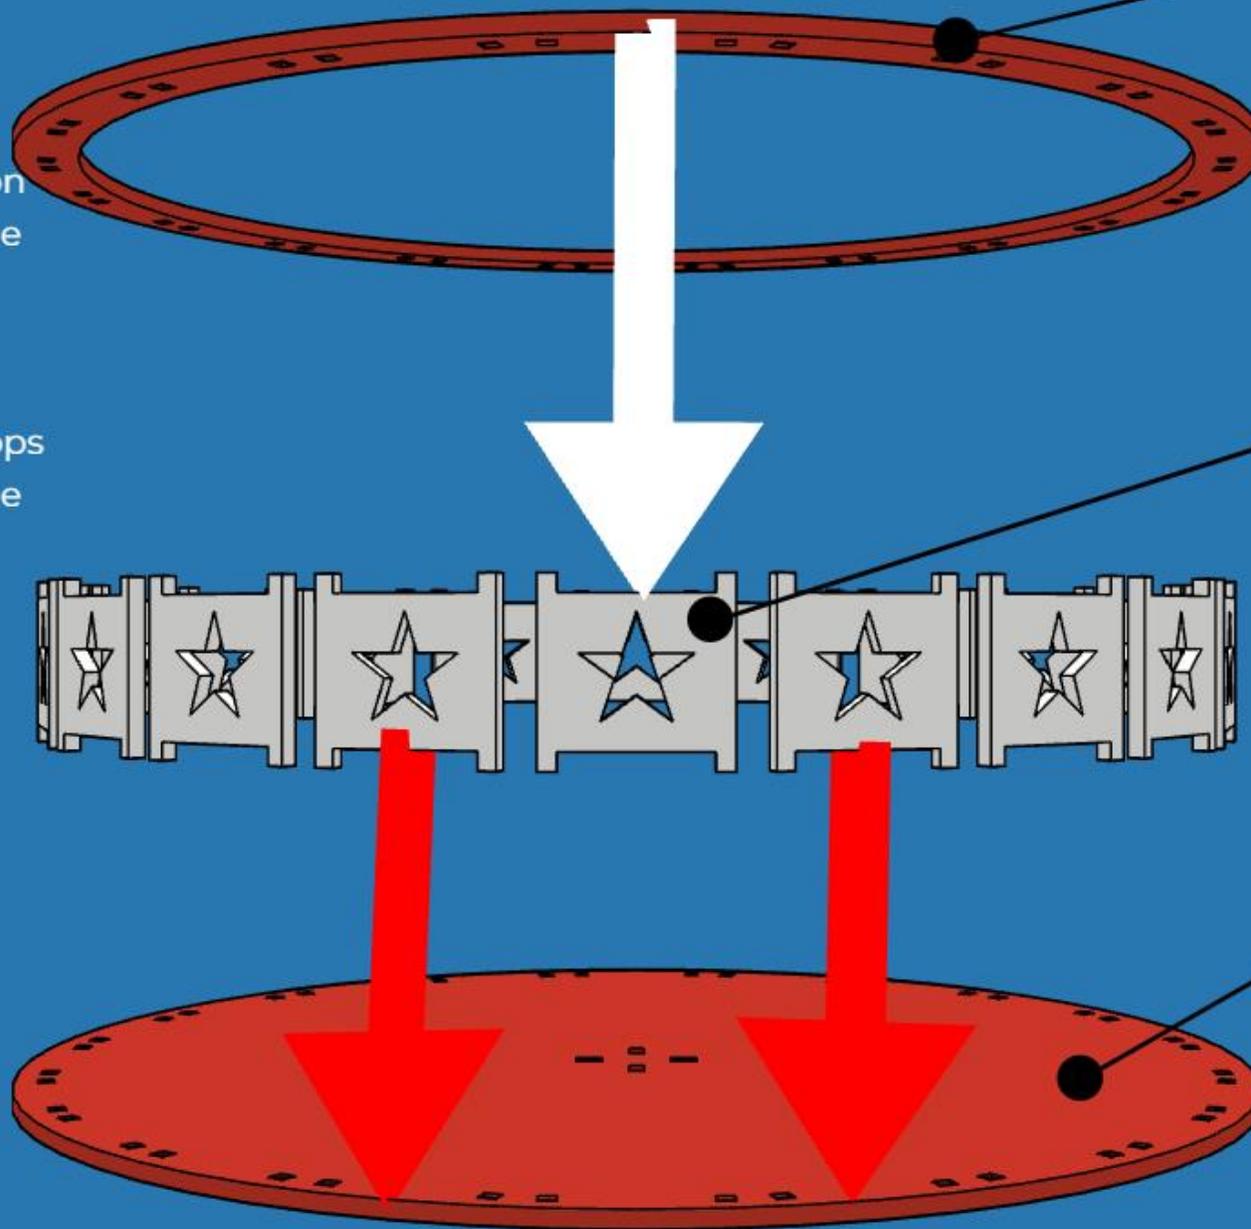

Glue the sides into the slots on the bottom being sure to glue both sides of all contacting surfaces.

Glue the Bottom Rim to the tops of the sides being sure to glue both sides of all contacting surfaces.

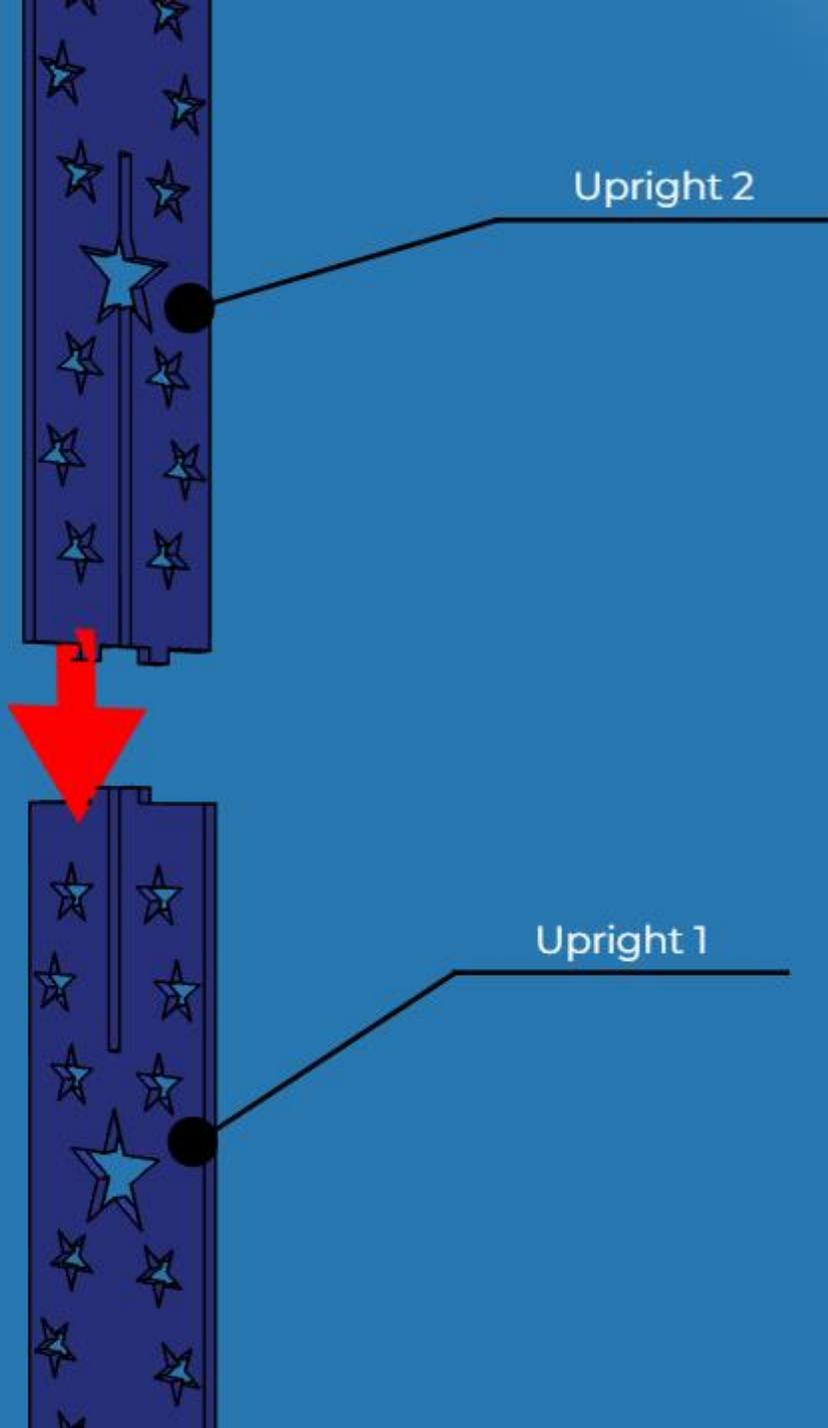

This step will require some patience.

Side

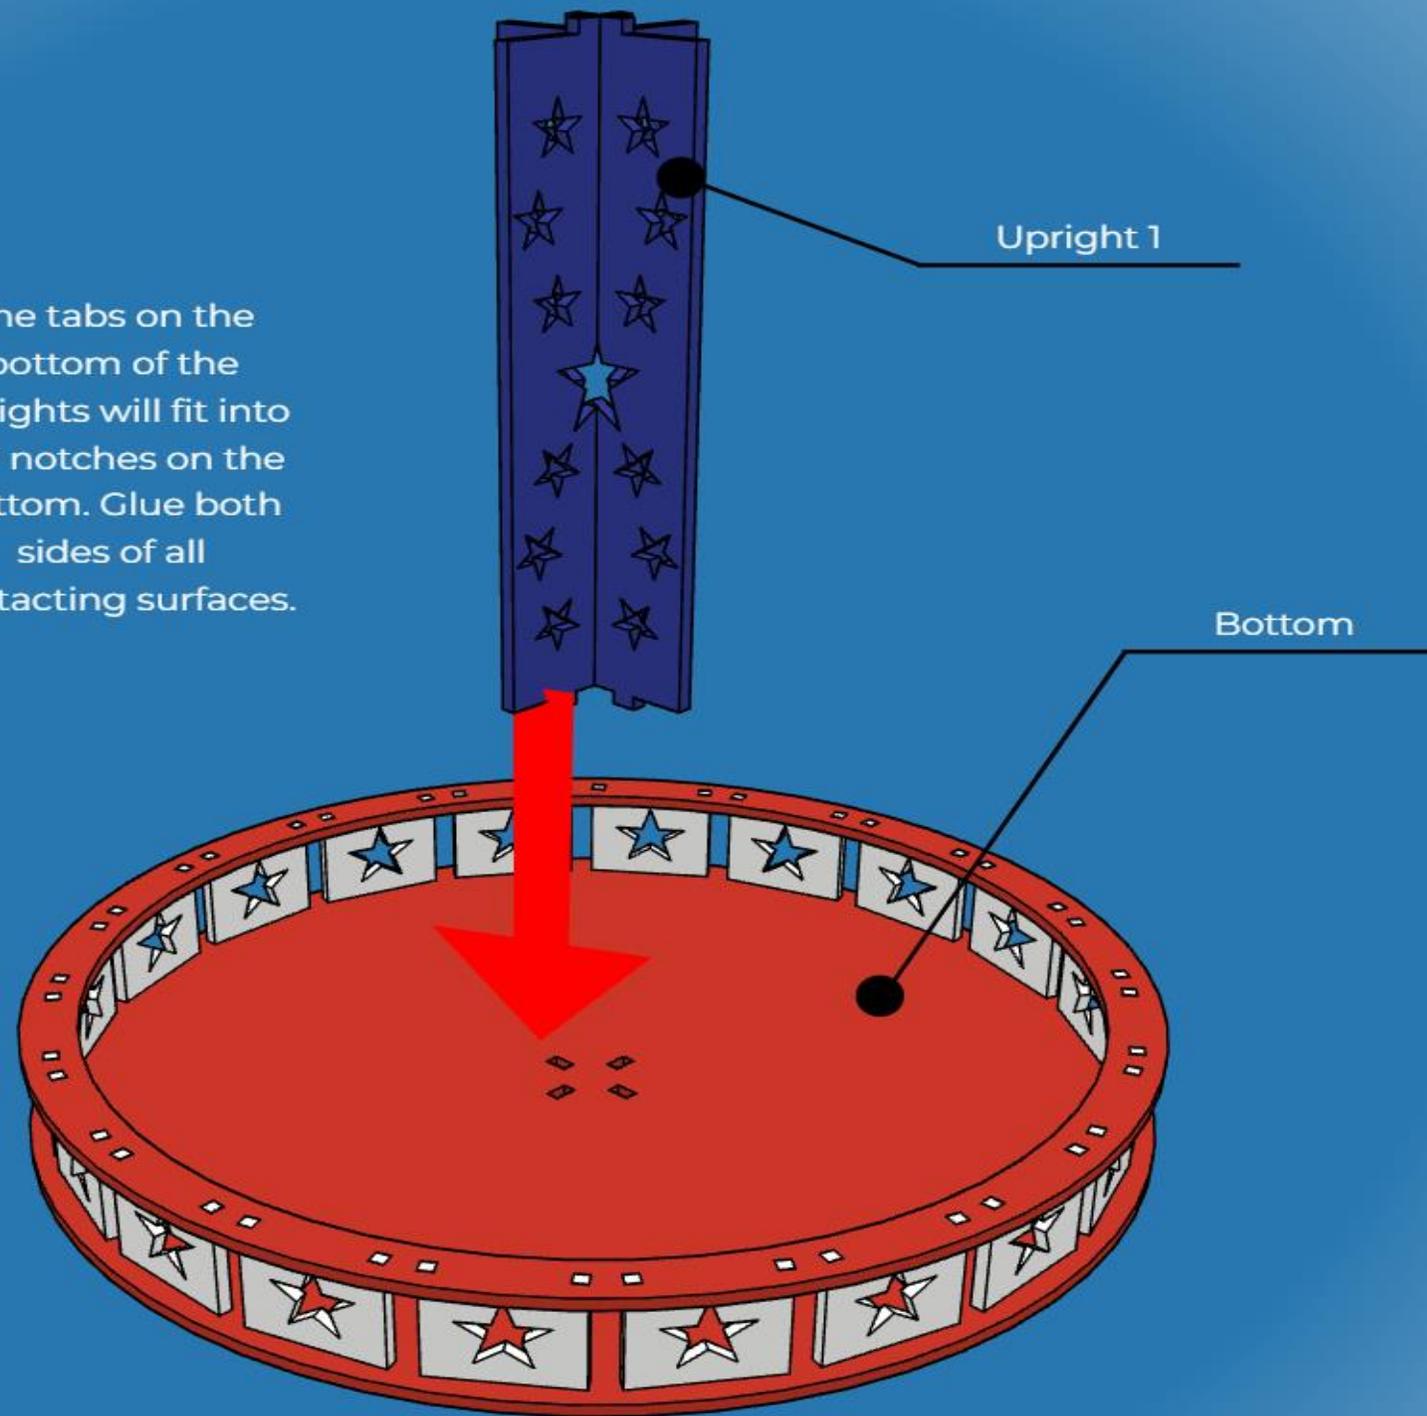

Bottom

The notches in the center of the Uprights allow for the Uprights to slide together. They should be perpendicular to each other. Be sure to glue both sides of all contacting surfaces.

The tabs on the bottom of the uprights will fit into the notches on the Bottom. Glue both sides of all contacting surfaces.

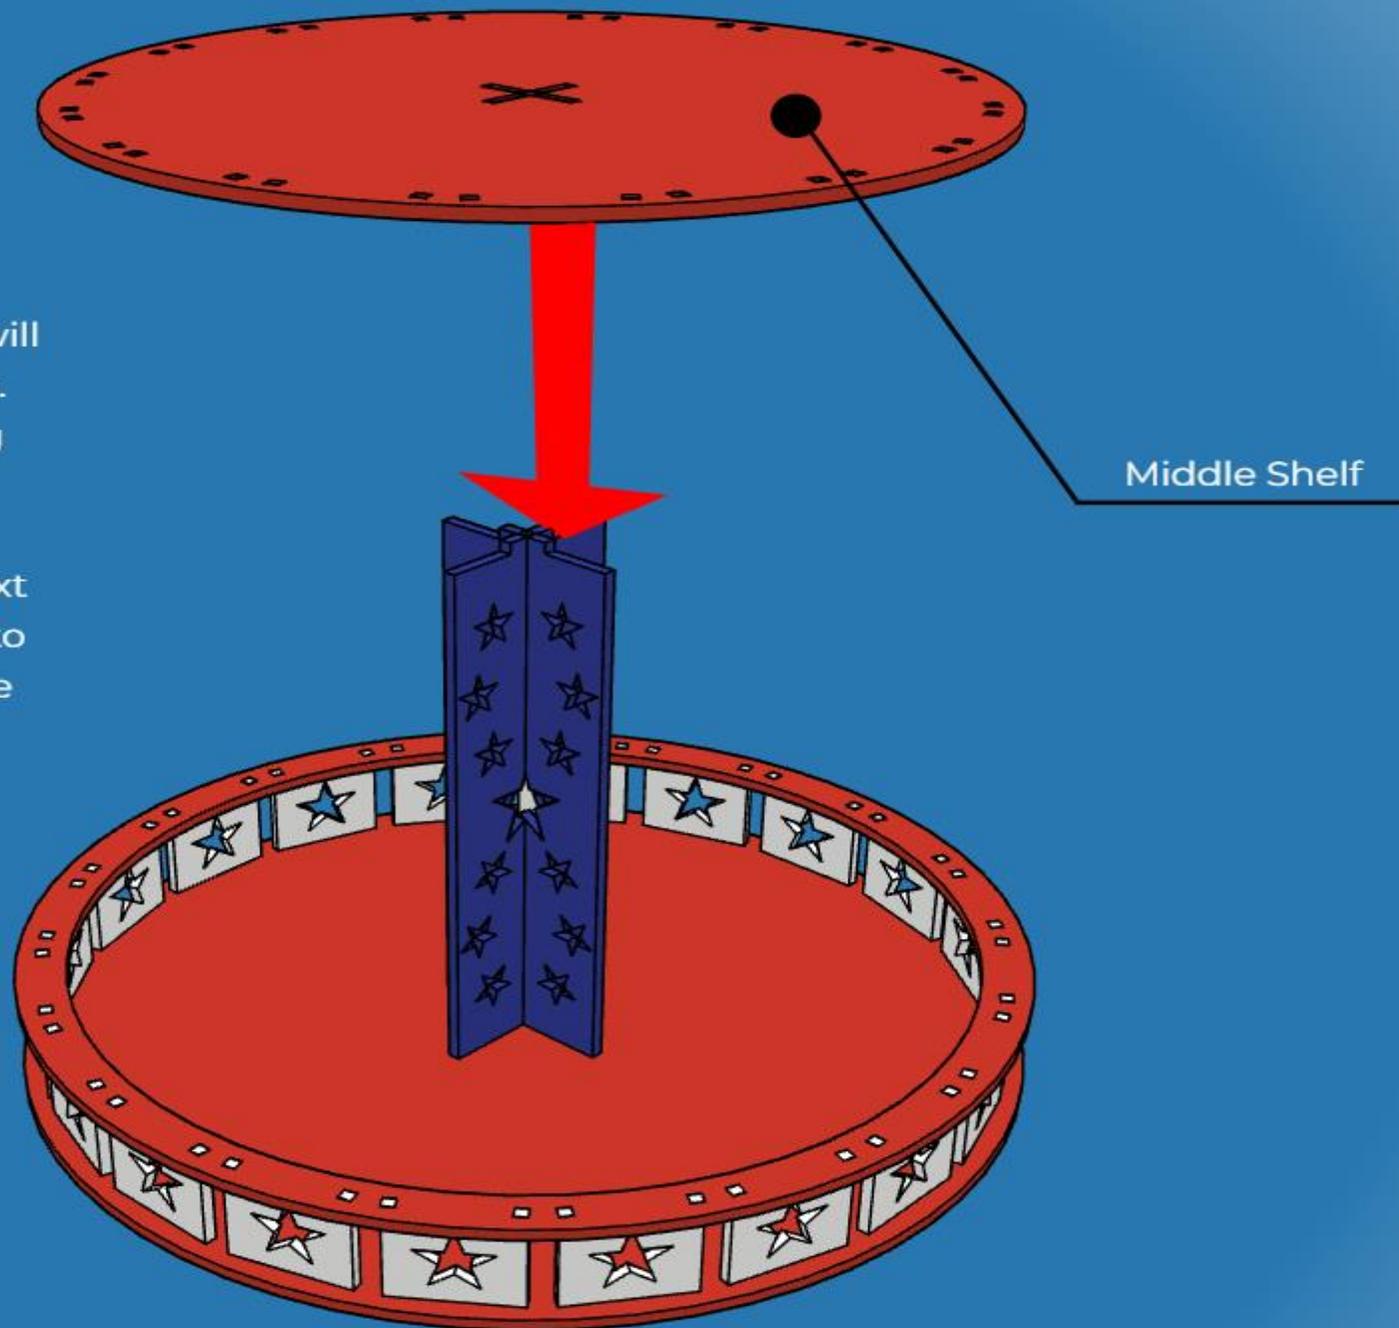

Upright 1

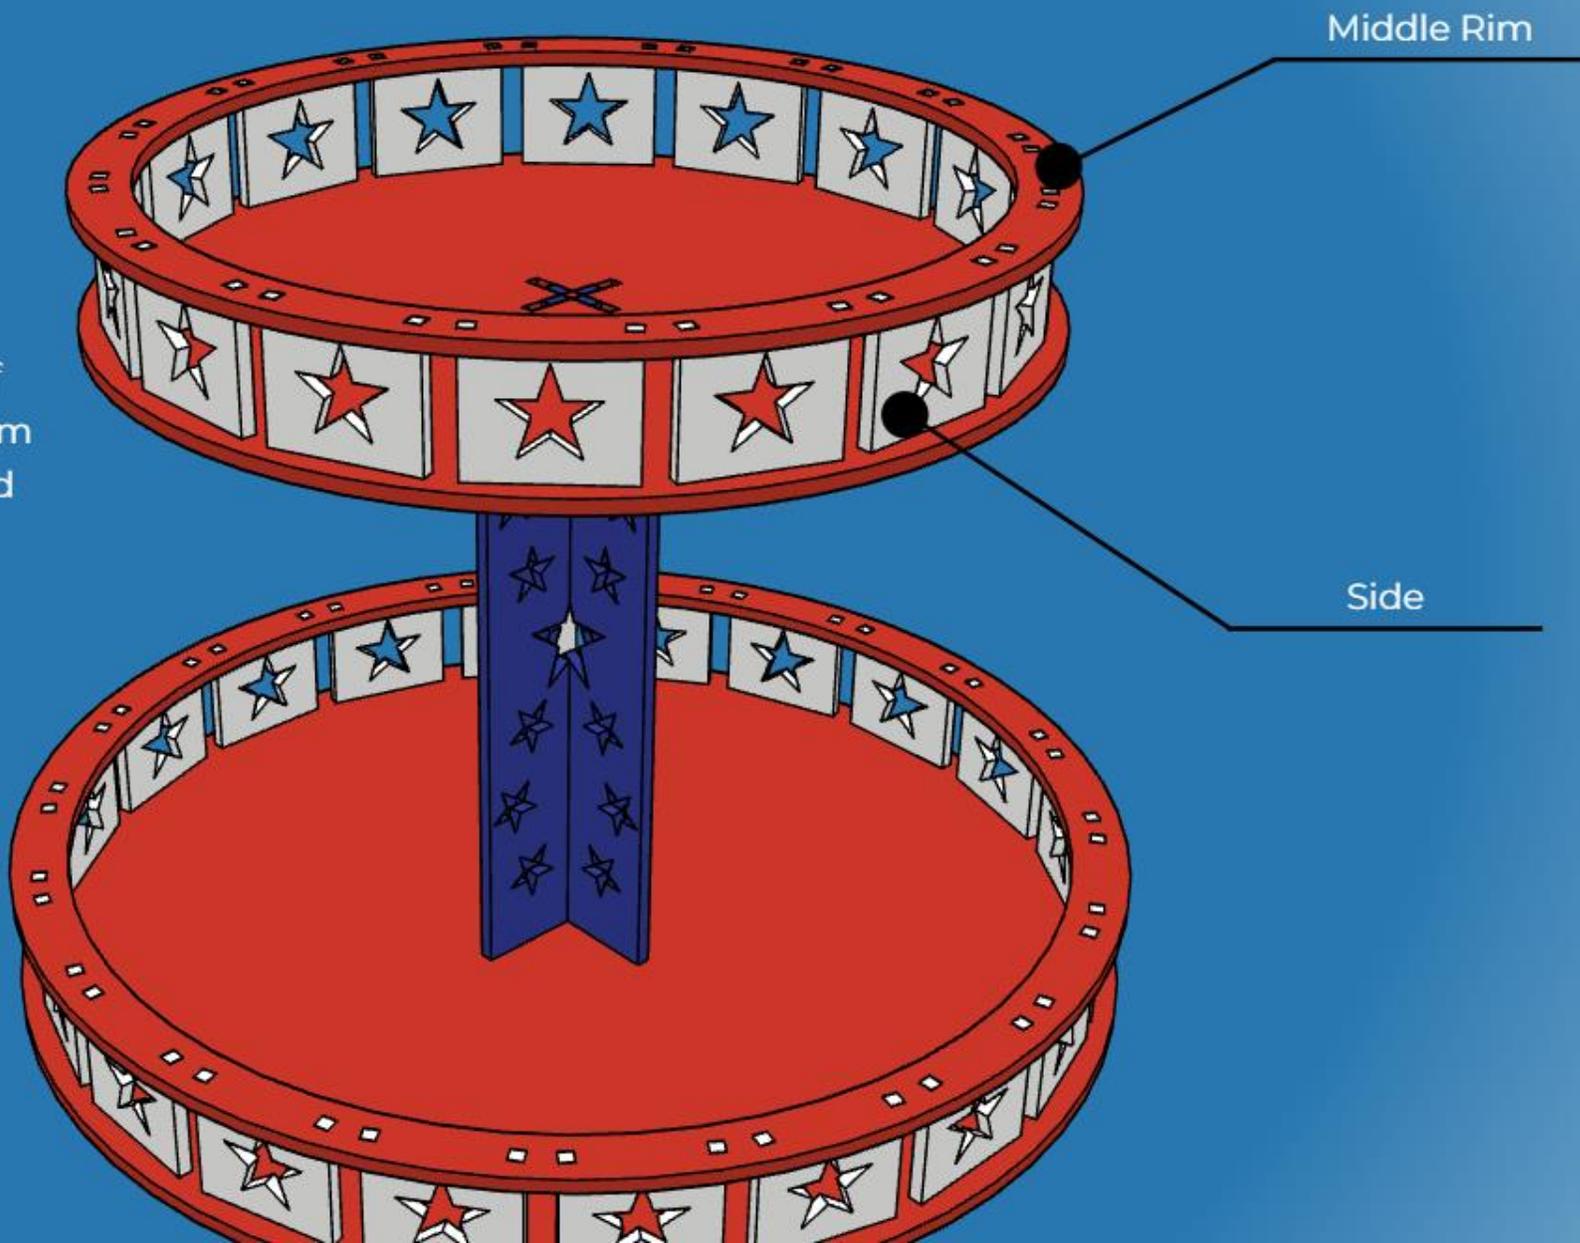

Bottom

The grooves on the Middle Shelf will fit onto the tabs on the uprights. Glue both sides of all contacting surfaces.

You will want to assemble the next set of uprights and glue those into place quickly as well because the grooves provide a tight fit.

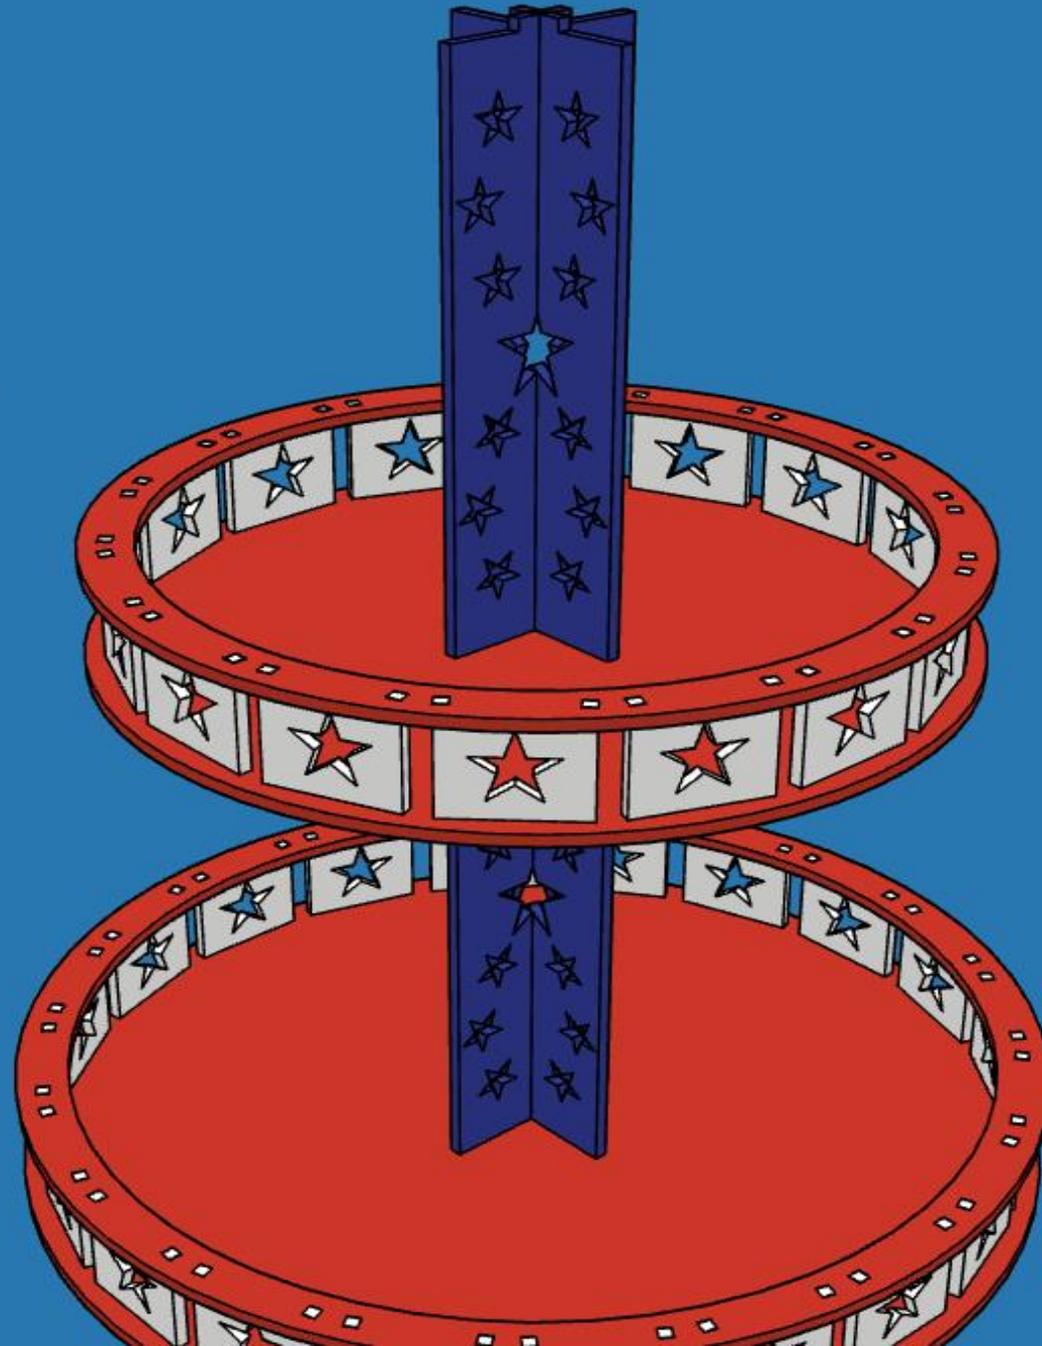

Repeat the process of gluing the Sides and Rim to the Middle Shelf and Middle Rim

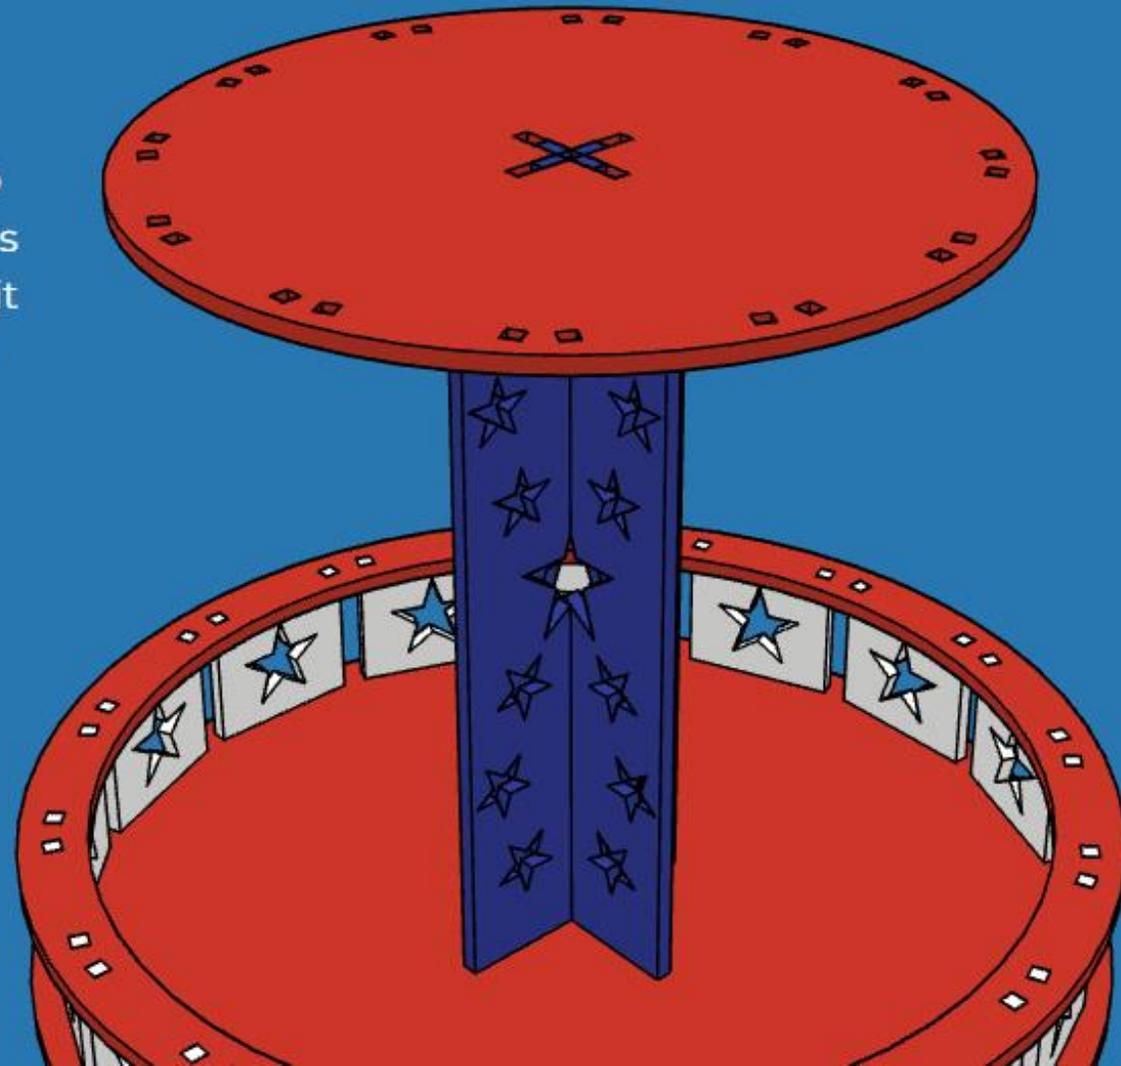

Middle Rim

Side

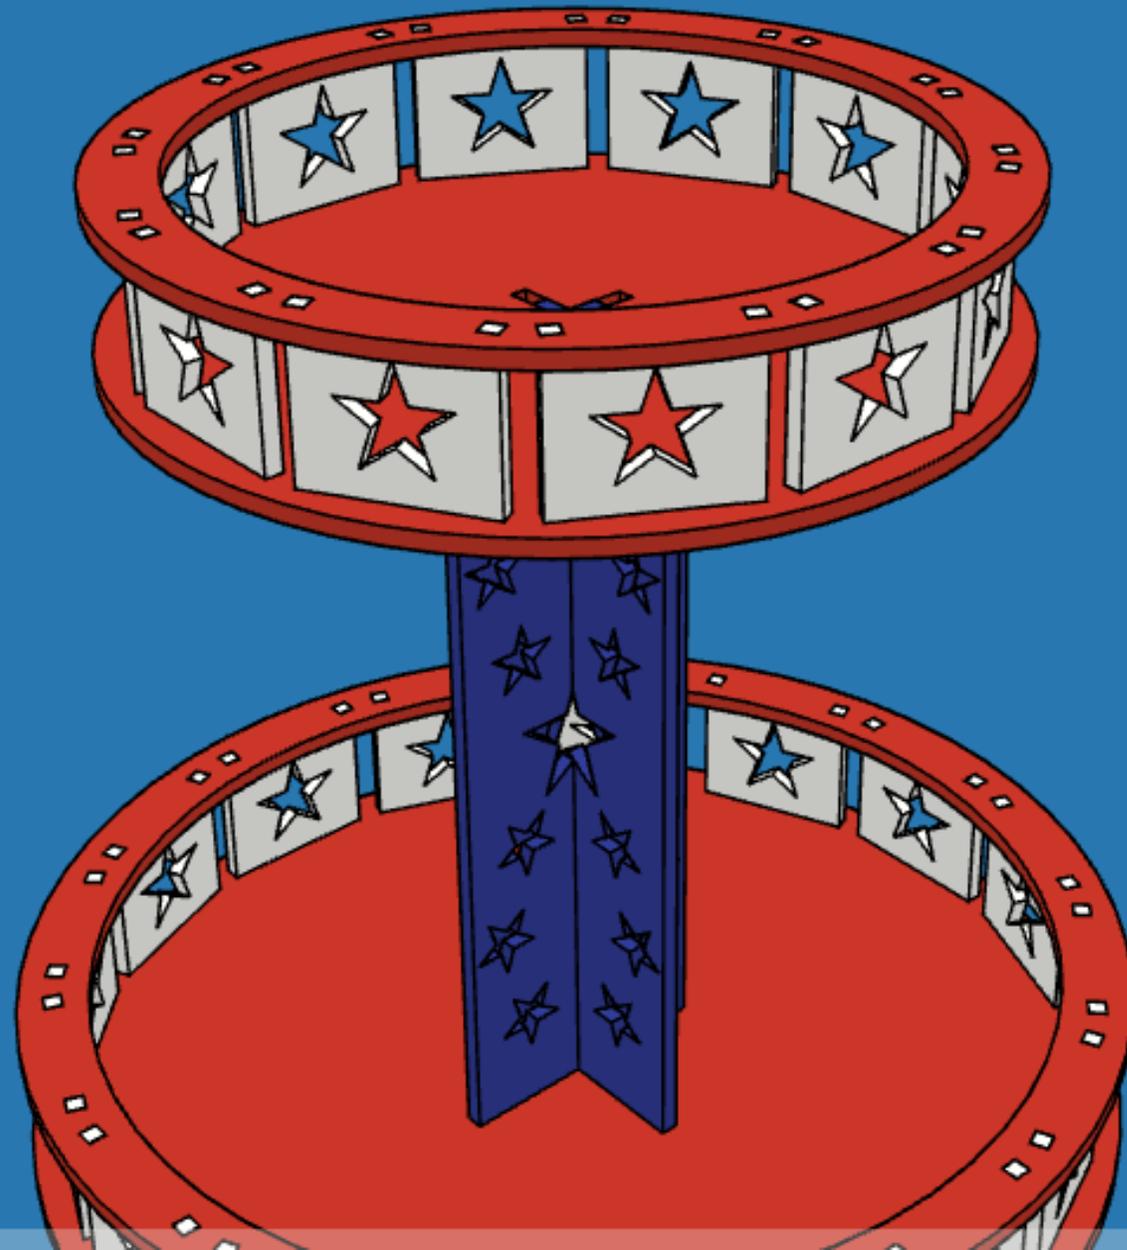

Repeat the process of  
gluing the uprights  
together and gluing  
them to the Middle  
Shelf.

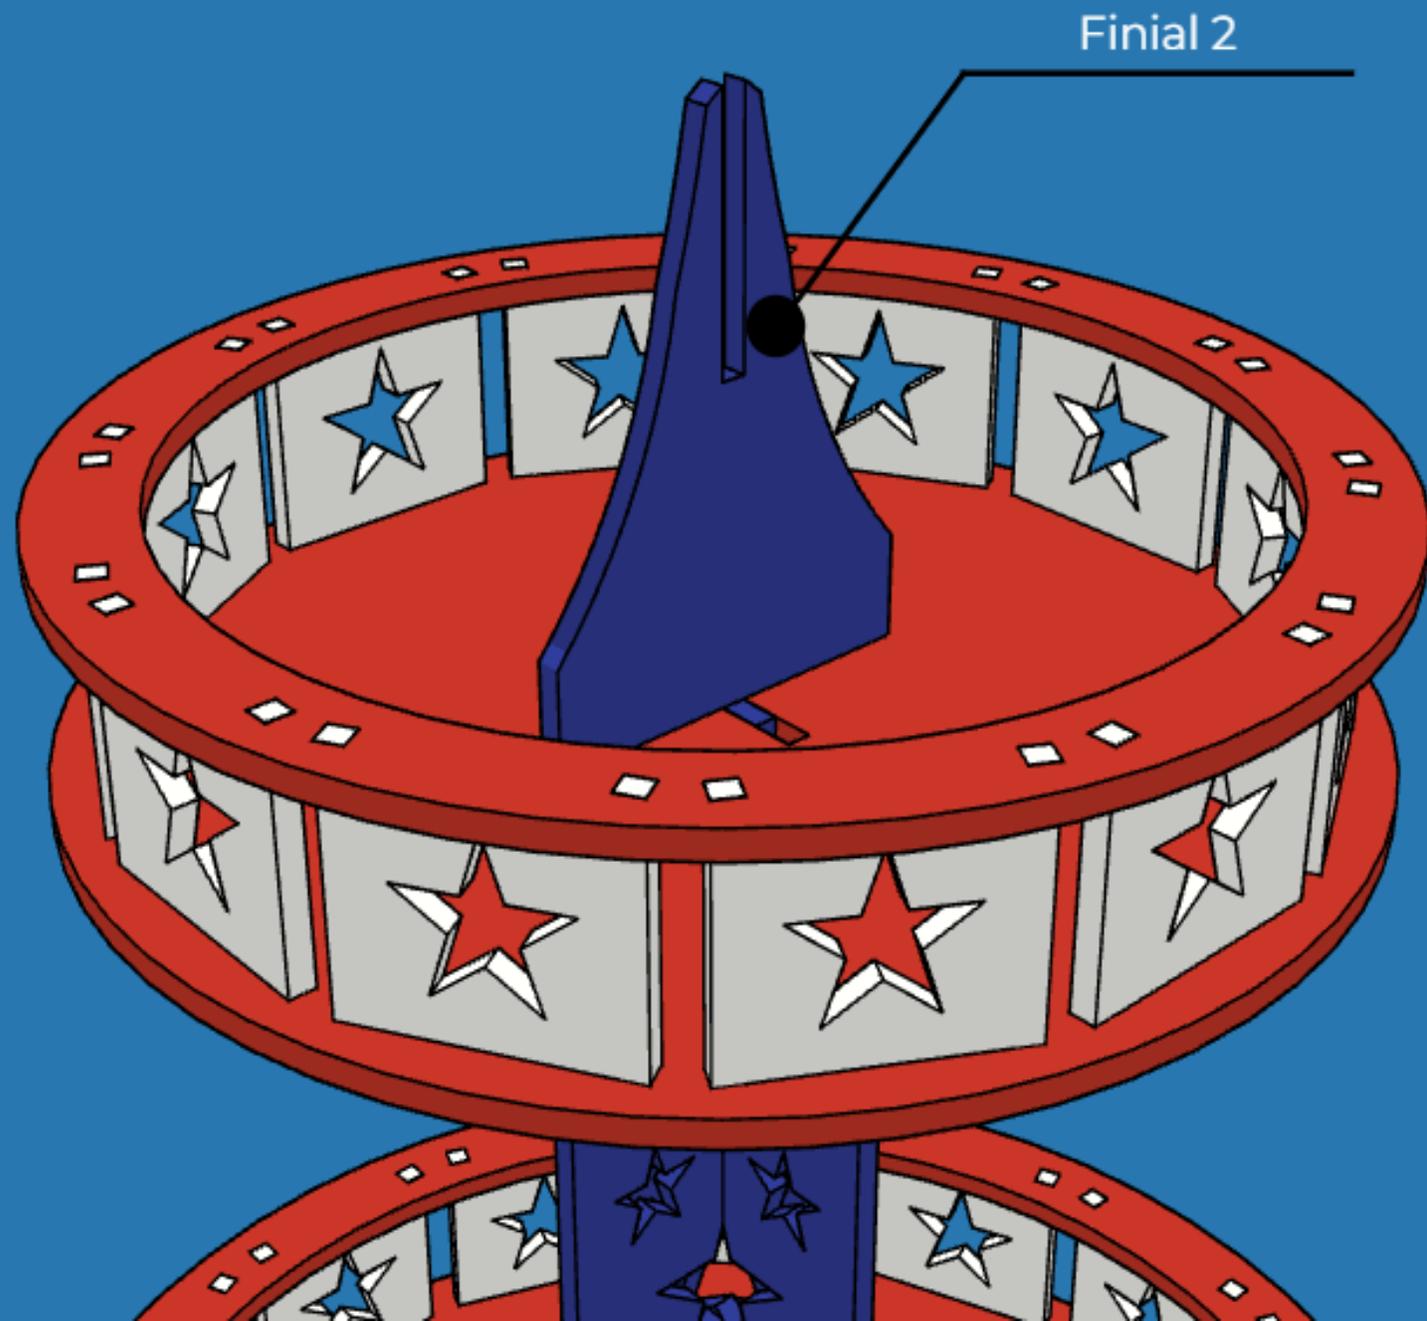

Glue the top shelf to the uprights. The tabs on the uprights will fit into the grooves on the top shelf.

Repeat the process of  
gluing the Sides and Rim  
to the Top Shelf and Top  
Rim

Glue Finial 2 to the Top Shelf. The tabs on the Finial will fit into the grooves on the Top Shelf

Finial 1

Glue Finial 1 to the  
Top Shelf and Finial  
2. The tabs on the  
Finial will fit into the  
grooves on the Top  
Shelf
