Brought to you by the Three Toed Bear

# THREETOEDBEAR

## CUSTOMIZE YOUR LIFE

# The Pumpkin Shelf

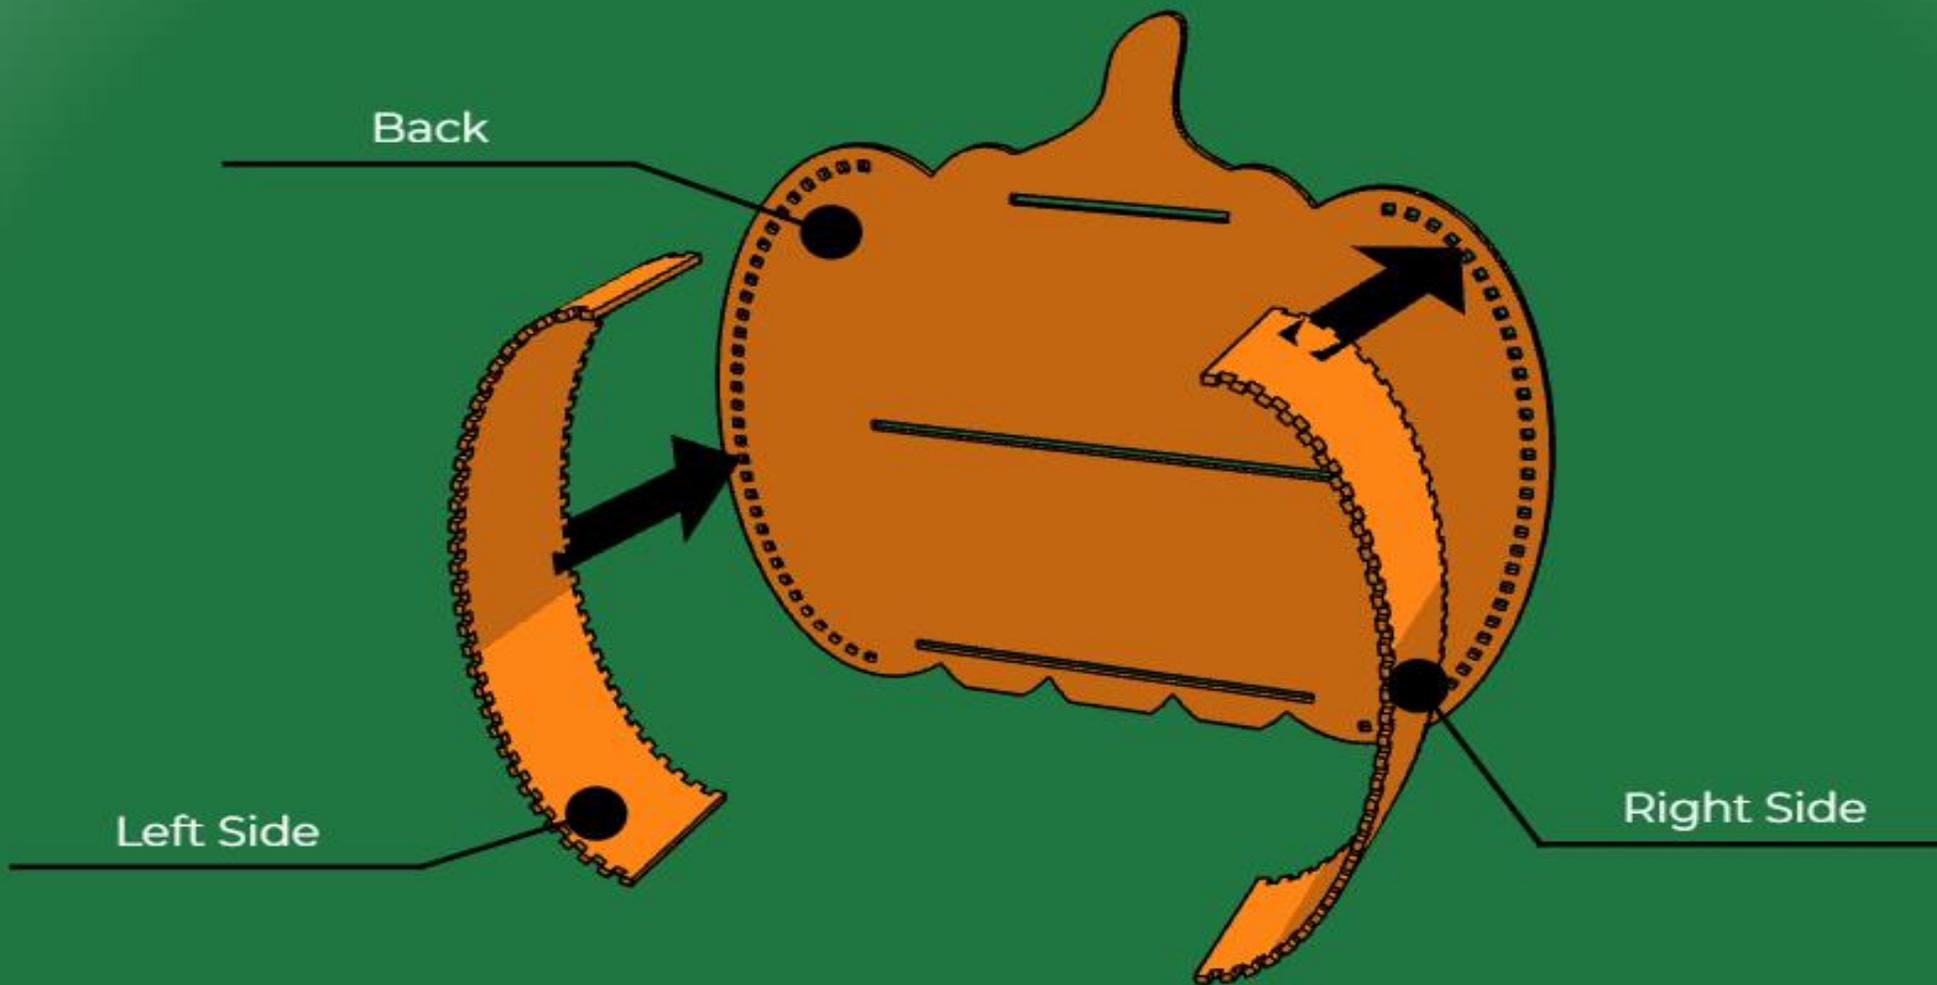

Thank you so much for your purchase and your interest in my designs. If you get the chance, pop on over to [www.threetoedbear.com](http://www.threetoedbear.com) where there are lots of free downloads and some discount links for some others. Be sure to subscribe to the mailing list and be the first notified of new free designs, or when popular designs end up going online for free as a thank you to my customers!

You can also get notified of all the free files available on Facebook in the Glowforge Creators group at <https://www.facebook.com/groups/303245694844372>

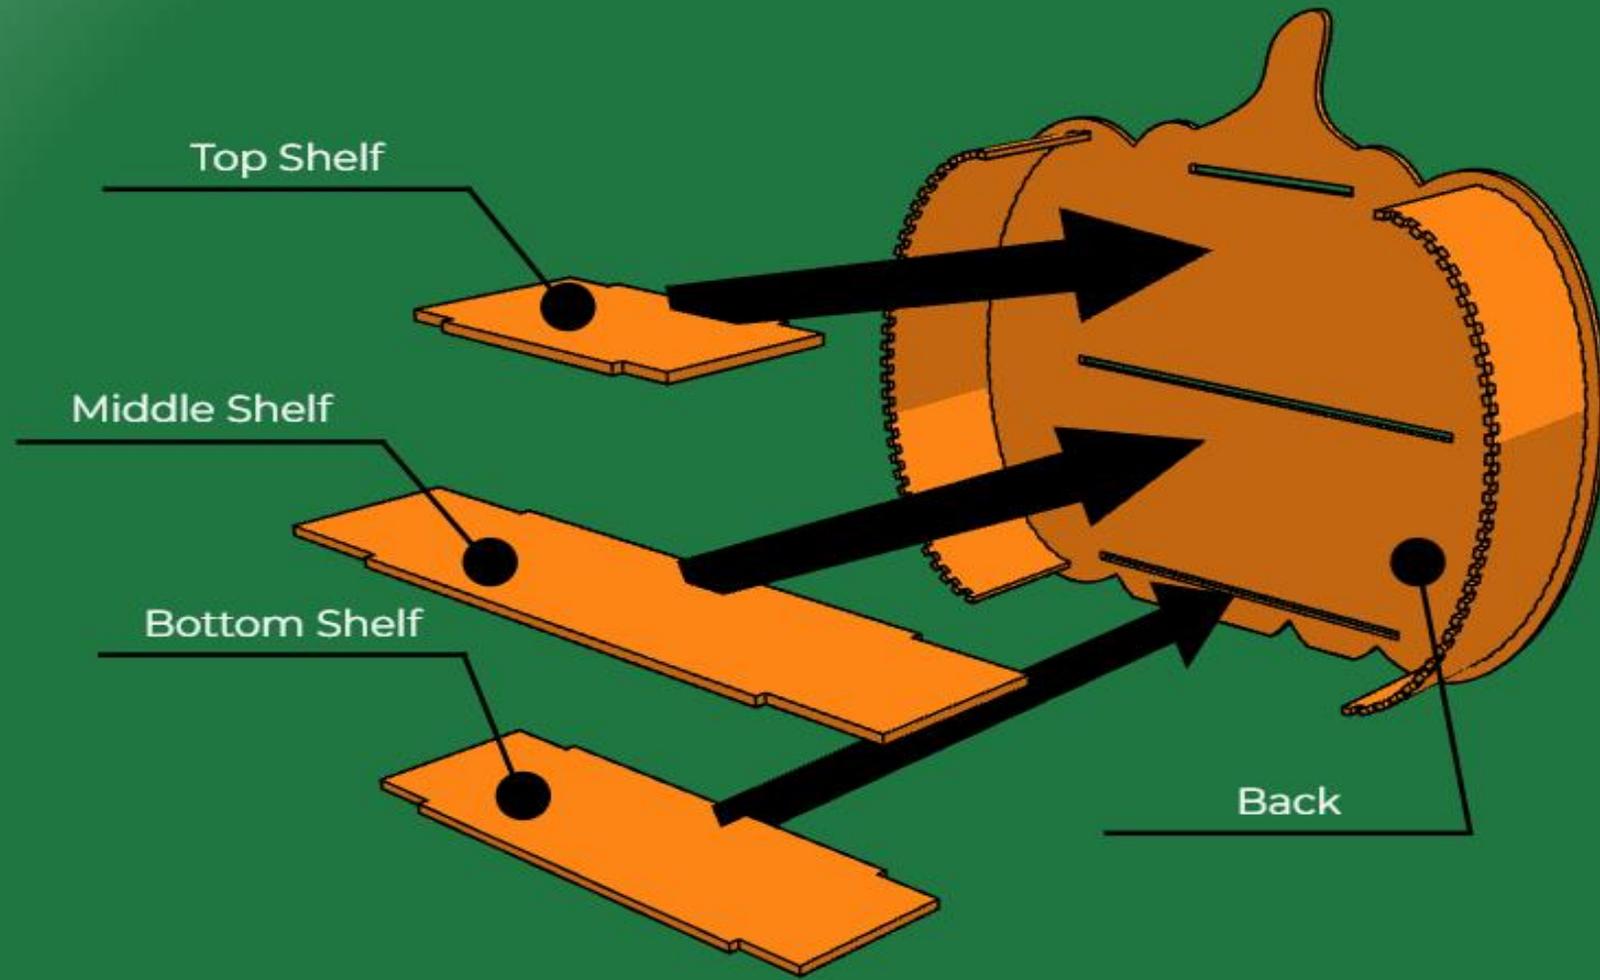

And of course check me out on Instagram @threetoedbear  
<https://www.instagram.com/threetoedbear/>

Please test the notch and groove fits before cutting the entire assembly. Not all lasers or materials are created the same, so getting a kerf-fit that works for everyone is impossible. This will work the material I recommend on [www.threetoedbear.com](http://www.threetoedbear.com)

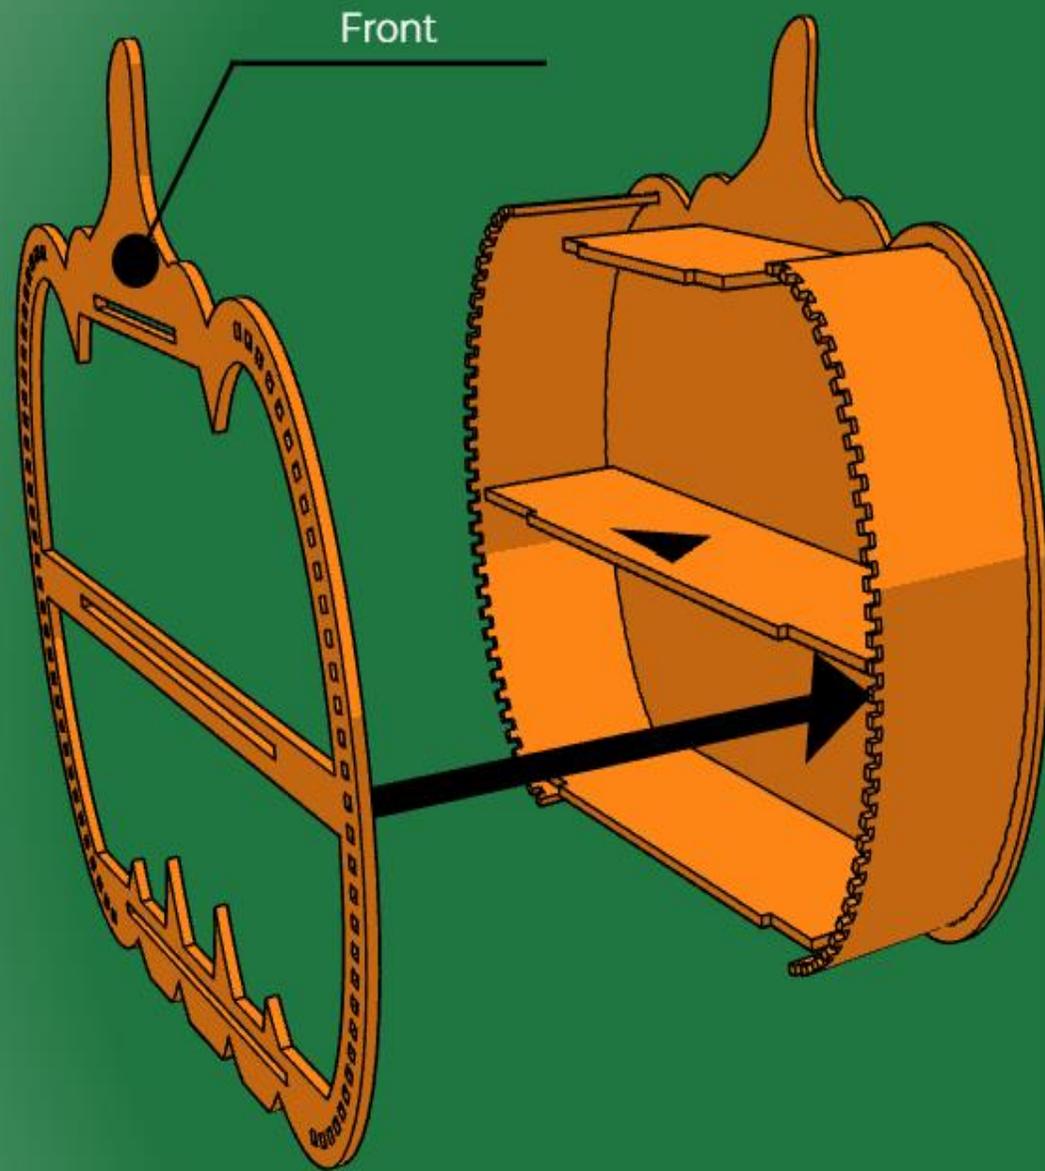

If the fits don't work for you, please feel free to shoot me an email at [threetoedbear@gmail.com](mailto:threetoedbear@gmail.com) and we can work together to get you an assembly with the proper fits.

Insert the tabs on the sides into the notches on the back. This will require careful bending and some stretching of the sides. Glue both sides of all contacting faces.

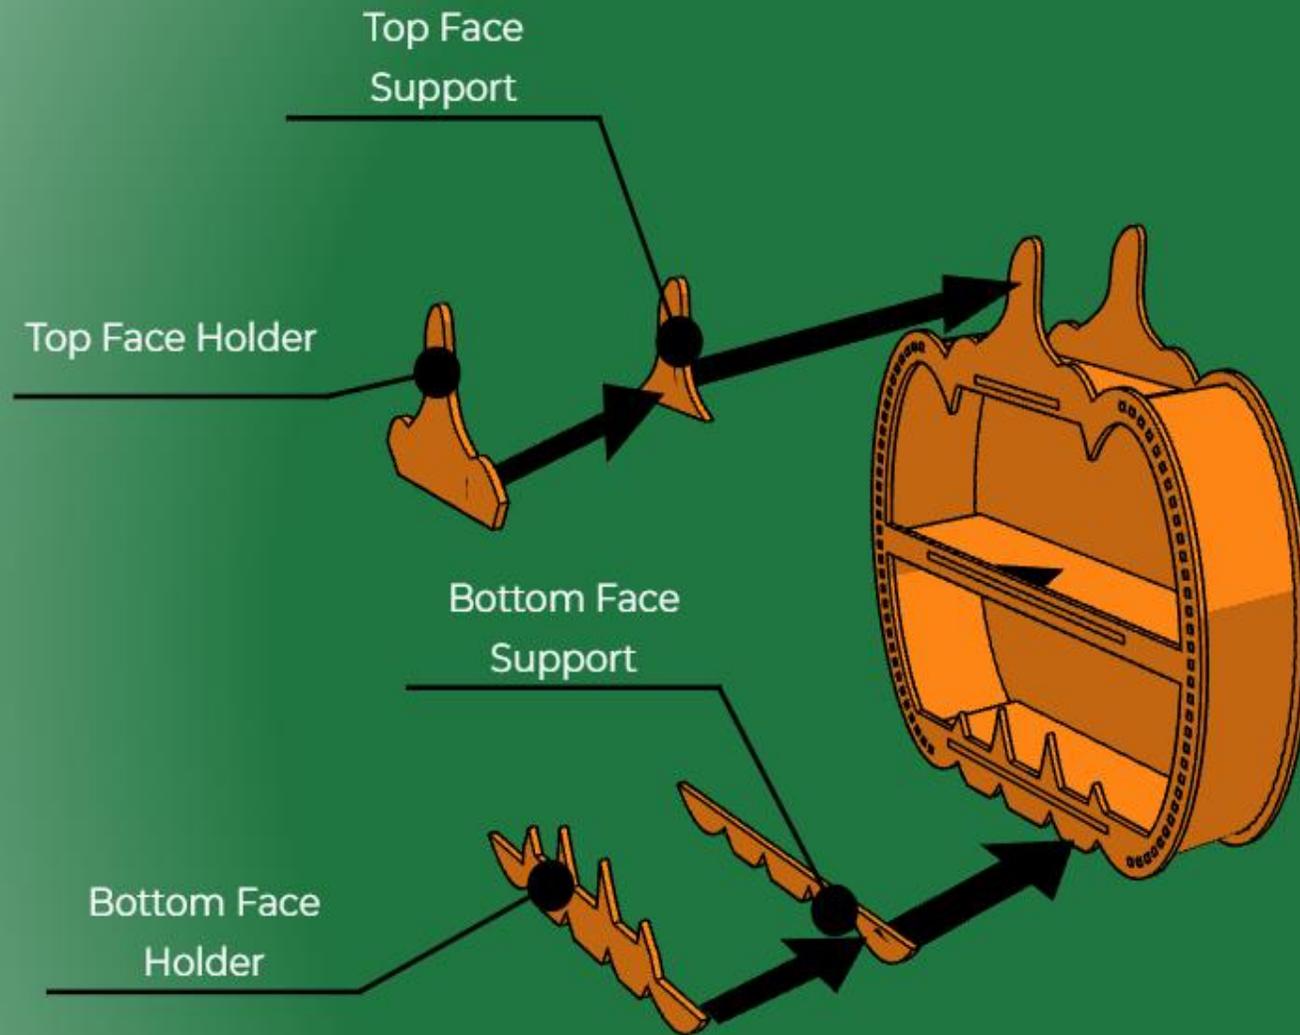

Insert the tabs on the Top, Middle, and Bottom Shelf into the notches on the Back. Glue both sides of all contacting surfaces.

Attach the Front by inserting the tabs on the Sides and Shelves into the grooves on the Front.

My recommendation is to start by attaching the sides carefully and aligning the shelves so that they are out of the way. After getting the sides inserted, clamp or hold the sides and carefully lift the middle until the shelf tabs can be inserted into the notches.

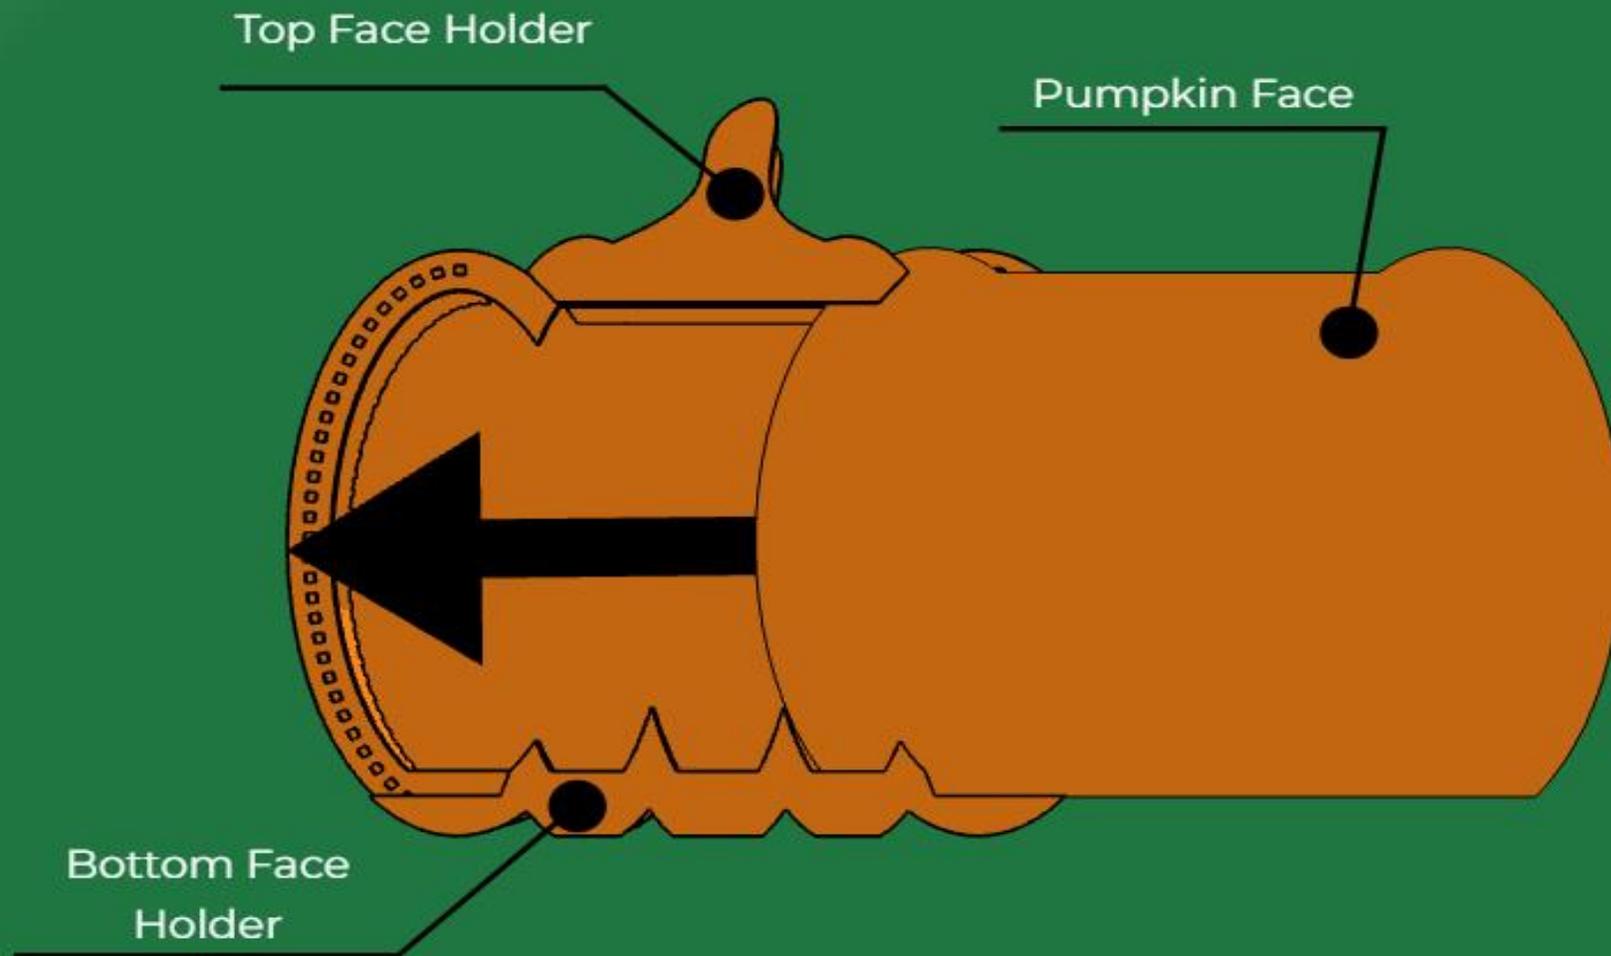

Glue both sides of all contacting surfaces.

Glue the Top Face Support to the Front and then glue the Top Face Holder to the Top Face Support.

Glue the Bottom Face Support to the Front and then glue the Bottom Face Holder to the Bottom Face Support.

For best results, put the pumpkin face (Next Step) in place to support overhanging edges.

The Pumpkin Face can now slide freely behind the Top Face Holder and the Bottom Face Holder.

Paint, cut, engrave, or draw to make it your own!
